COMMERCIAL BLENDER 6 L

ISM-BL6A

STANDARD FEATURES

Dispensing tap · multi-speed · 1500 W

- A 6 L jar blends a whole batch of juice, smoothie, milkshake or soy milk at once: the volume for juice bars, cafés, bakeries and catering kitchens.
- A tap near the base of the jar pours straight into the glass or jug, so drinks are served from the batch without lifting and tipping a full jar.
- Stainless-steel blades on a 1500 W motor. The speed dial goes from a gentle mix to a smooth, fine blend, and the pulse switch gives short bursts on demand.
- Transparent, unbreakable jar with a side handle that keeps the blend in sight, closed by a lid with a centre cap.
- Overheat protection guards the motor. Countertop build on a standard 220 V / 50 Hz socket, for the bar back or the prep bench.

PRODUCT SPECIFICATIONS

Capacity	6 L jar
Dispensing	Tap at the jar base
Controls	Speed dial, ON/OFF, pulse
Blades	Stainless steel
Power	1500 W
Energy source	220 V / 50 Hz, single phase
