TKF TECHNOKITCHEN FABRICATIONS

# COUNTER ELECTRIC RICE COOKER

## ISM-ERC8

## STANDARD FEATURES

19 L pot · 8.5 L raw rice

- Cooks up to 8.5 L of raw rice in one 19 L batch, around 40 portions, so a single cooker covers a full lunch service in a canteen, hotel buffet or catering kitchen.
- One-touch operation: press the lever to cook, and the cooker switches itself to keep-warm when the rice is done, holding it ready to serve without burning it.
- A 2650 W heating plate under the aluminium inner pot brings a full load to the boil quickly and spreads the heat evenly across the base for uniform grains.
- Domed stainless-steel lid with a loop handle and a stainless rim over a white steel body, with two side handles for moving the cooker on the counter.
- Cook and keep-warm lamps on the front panel, with overheat protection. Runs on 220 V / 50 Hz single phase; plan a 16 A socket for its 12 A draw.

## PRODUCT SPECIFICATIONS
