

ICE STORAGE BIN 181 KG

ISM-ICB180

STANDARD FEATURES

For modular ice heads

- ✓ Holds 181 kg of ice. Running production overnight into a bin means the counter draws from a full reserve at peak instead of waiting on the machine.
- ✓ Stainless-steel outer shell over high-density polyurethane foam insulation, keeping melt low through a long service.
- ✓ Food-grade polyethylene inner tank with radiused corners so the store can actually be emptied, cleaned and sanitised.
- ✓ Heavy-duty hinged lid and feet adjustable between 130 and 185 mm to align the bin with the ice head above it.
- ✓ Takes the ISM-KQ and ISM-KS modular ice heads. A gravity drain connection is required at the bin.

PRODUCT SPECIFICATIONS

Dimensions	76.8 × 84.8 × 104.8 cm
Storage capacity	181 kg
Exterior	Stainless steel
Interior	Food-grade polyethylene
Insulation	Polyurethane foam
Compatible heads	ISM-KQ · ISM-KS series
