

BACK BAR COOLER

TKSA-BBC3GD

STANDARD FEATURES

Triple glass hinged door, black interior

- ✓ This cooler features triple automatic self-closing glass doors, which are essential for maintaining a constant internal temperature. This functionality is crucial for energy efficiency and ensuring beverages are perfectly chilled, especially in high-traffic settings like bars and cafeterias.
- ✓ Equipped with fan-assisted cooling to provide even temperature distribution across the entire unit. This system is particularly beneficial in environments with frequent door openings, helping to maintain consistent cooling and freshness of beverages.
- ✓ Integrated with internal LED lighting, this cooler enhances the visibility of its contents, making it easy for customers to view and select their preferred beverages.
- ✓ Includes four adjustable shelves that offer flexible storage options, accommodating a variety of beverage sizes and quantities. This feature is perfect for bars and cafeterias that need to manage large and diverse inventories efficiently.
